

## ABOUT ME

I'm a designer based in the Minneapolis—St. Paul area who specializes in web and print.

I love clean design. My focus is on a balance between simplicity, functionality, and elegance—ultimately blending together for an enhanced user experience.

I have worked on a wide variety of projects, included websites, print media, digital media, and branding. My experience also includes typesetting book interiors, and designing trade show booths. With more than 7 years of experience, I am confident that I can put my skills to use fulfilling the creative needs of your company.
